

Sneak Preview

As you know by now we are planning a very big event for October 14th in the Science Center Room 101 on the Swarthmore College Campus at 2:00pm.

Here is a sneak preview of some of the plants we will have for sale in limited quantities.

The sale will take cash and checks (which are written out to MAPS). Proceeds go for future educational programs and the purchase of plants to help bring additional varieties of peonies to gardens in the Mid-Atlantic area.

Bring a friend as this event is open to the public. Great theatre style seating for Carol's presentation. Not a bad seat in the house!

Volunteers still needed to help out on October 14th. We need food donations for the reception and don't forget our pot luck dinner for MAPS members following the book signing, plant sale and reception. We could use some additional hands to help out with greeting guests and working the plant sale tables. Contact Marge if you are bringing a food item and you can contact Bernie if you want to help out in the lobby before and after the talk.
